

[Nikki Benz](#) was at the [Everything to do with Sex](#) show with the Screaming O Cock Ring people; signing autographs and talking about the sex toys on stage.

Nikki is a Toronto native who now lives in Arizona. She started out modeling bikinis and participating in beauty pageants and at 18 got into exotic dancing. She enjoyed exotic dancing and is still very successful in this area, but wanted more. Just before she turned 21, Nikki contacted a director in the adult film industry and was cast for roles in "Strap-on-Sally 20" and "Strap-on-Sally 21". Since then Nikki has appeared in over 40 adult films and has even directed one (according to her site and imdb). She has also been photographed for many popular adult magazines, like Hustler and Club, as well as mainstream magazines like Maxim and Stuff. She has held contracts with Pleasure Productions, Jill Kelly Productions, and Teravision. Currently Nikki does a radio show with three other women called "Contract Superstars" on [KSex radio](#).

{Interesting fact: I am one week older than Nikki - crazy!}

Nikki was my first interview of the day and my first interview with a porn star - I don't mind telling you that I was a little nervous! Luckily Nikki was super sweet about giving me an interview and even came out of the booth to take a photo with me!

I don't know how she does it, but she has this magical way of posing - it's like you're talking to her and she's normal, then you go to take her picture and she poses - and it's like *bam* - instant glam!

Anyway, here is the gist of how my interview with her went, enjoy:

Me: [Nikki](#), on your myspace webpage you talk about how you enjoy having sex in exotic places, what's the most exotic place that you've ever had sex?

Nikki Benz: [I would have to say in the Caribbean: Aruba and especially the Panama Canal, on a cruise-ship.](#)

[ed. note: what a coincidence, the Caribbean is the most exotic place I've ever had sex too!]

Me: [I know you're currently doing a radio show on KSex, how did you first get into radio?](#)

Nikki Benz: [I started off doing guest spots and eventually was asked about doing my own radio show with some other girls. I really love doing a radio program because it gives my fans another way to enjoy and get in touch with me.](#)

Me: [You've done so many films, which are your favourites?](#)

Nikki Benz: [Is it alright if I name three?](#)

Me: [Sure!](#)

Nikki Benz: [My three favourite films that I have been in are: The Nikki Benz Show, Take No Prisoners, and Test Drive.](#)

Me: [Do you find that it is easier to work with men or women?](#)

Nikki Benz: It really depends on the person and the chemistry that we have together. I've had great experiences with both men and women working on my films.

Me: How do you feel about condom use in pornography?

Nikki Benz: I find that it is easier to do a scene without using condoms, it also looks better on camera. But on our radio show we always promote safe sex for people who are having sex in the "real world". In the porn industry we have very stringent testing so it is not so dangerous for us to not use condoms in our sex scenes.

Me: What kind of crazy things happen on set when you are filming?

Nikki Benz: Oh! It's so hard to come up with one on the spot like this! I guess one crazy thing that has happened was when this one guy "finished" before he was supposed to in a scene. When this happens we have to wait around for a while to see if he can be ready to perform again quickly or the studio will have to call in a back-up guy to take his place. It can get expensive for the studio when this happens.

Me: Oh wow! Does that happen very often?

Nikki Benz: Hmm no not that often - in the four years I've been working I've only seen it happen twice.

Me: That's all the questions I have for now, thank you so much for your time Nikki!

Nikki Benz: You're Welcome!

So there you go folks - even porn guys can't always hold it back when they are with the fabulous Nikki Benz. ^_^
Thank you again to Nikki for being so fantastic and giving me such a lovely interview (and an autographed photo).
